

Refreshed. Inspired. Ready to learn.

Invite Flow Circus to your next meeting, conference, or special event and bring out the best in everyone. World class juggler Paul Miller and award winning educator Dawn Daria create space for groups to shift perspective, practice active mindfulness, and strengthen connections in order to positively affect outcomes.

Half Day Workshops

"Dawn and Paul have a way of taking complex challenges that can present themselves in the workplace and breaking them down into simple, clear lessons that invite people to think differently about how they show up in work and life – all while having fun!"

Noelle Ybarra, Wellness Specialist, RTI International

Unlike anything you've done before. We gently nudge participants outside their comfort zone to experience something new. Our sessions address your programming goals while making the session fun and accessible for all.

Interactive Keynotes

"Paul and Dawn were able to personalize their Flop Ball presentation to the specific themes we wanted to introduce our group to and the Flop Balls themselves were a fun and versatile "prop" to drive the presentation home. Our group really loved having the balls to take home and play with!"

Caroline Hamilton, Communications Coordinator, Comporium, Inc.

From snoozefest to *woohoo* fest, our two person keynotes are the perfect combination of content, entertainment, and hands-on engagement. Adaptable to all audience sizes and set-ups. Perfect to kick off, wake up, or wrap up your event.

Energizers

"The Flow Circus team are extraordinary performers who know how to engage an audience and create valuable learning experiences. Outstanding."

Nido Qubein, President, High Point University

Fill in the gaps with the deliberate goal of leaving your audience refreshed, recharged, and open to learning. Five minutes on stage between presentations to get people moving or in the hallways where the real connections are made, we have what it takes to get people thinking, talking, and tweeting.

Lasting Impact

"Finding activities that are inclusive of all team members is a constant challenge that is easily met by Flop Balls. Spontaneous interactions, sparked by Flop Balls, have kindled casual relationships between coworkers, and expanding the size of workplace social networks."

Aaron Charwood, Director of Network Standards, Akamai Technologies, Inc

The Flop Ball, a tool used in all of our programs, can be customized for your event or branded with your company logo. Provide attendees with a tangible reminder of your company connected to a fun, memorable experience.

The span of activities enabled our most seasoned employees as well as our new career employees to participate in a meaningful way.

Chan Bryant, Senior Vice President, WithersRavenel, Inc.
